- REINFORCED TRANSFER PIVOT AND FRAME WITH MULTIPLE ROLLERS ACROSS WIDTH.
- EACH DECK REINFORCED
- OPTIONAL H/D CASTORS AND BEARINGS.

REINFORCED TELESCOPIC EXPRESSWAY

the robust extendable gravity roller conveyor.

This heavy duty expressway offers an additional model allowing an extended length of 15metres. All decks are reinforced with rolled steel angle and include a strengthened transfer and pivot area.

It is designed for arduous conditions.

Height and slope can still be adjusted easily on each mobile support by means of a convenient screw jack arrangement.
